East Meets Midwest II

Sep 22, 2018—Jan 6, 2019, McGregor Gallery

East Meets Midwest II brings together an impressive array of artists from two geographically disparate art collectives, the East Coast Group and the Midwest Paint Group. Following in the tradition of 20th Century modernist painting, both groups work in Post Abstract Figuration, a movement focused on depicting things, objects, places, and perceptions through mark-making, form, rhythm, tone, and structure. Featuring 28 artists and more than 120 works, this exhibition encompasses the vitality and inventiveness present in 21st century painting.

Spirits, Illusions & Discoveries: Scanographs by Doug McLarty

Sep 22, 2018—Jan 18, 2019, Chakeres Gallery

Featuring more than 50 “scanographs,” Doug McLarty’s eye-catching works dazzle the viewer with their spirited botanical imagery and natural forms. His images are not made with a camera, but rather with a unique modified digital scanning process that allows for an intimate level of detail and a quality of light not found in traditional photography. With subjects ranging from shells to vegetables, this exhibition offers the viewer the opportunity to appreciate the whimsy, beauty, and humor of the natural world.
